

## EZY SEE BLUE BALING TWINE

Ezy-See Blue Small Square baling twine is a premium, high quality small Square twine, which has been synonymous with small square baling in Australia for many years. Another of the signature Twines from the Donaghy's twine range, Ezy-See Blue has been used for both general purpose & the tough jobs in Small Square Baling.

Ezy See Blue encompasses both strength and a long running length per spool, which makes it the best choice for the Small Square Bale market.

APPLICATION	IP CODE	DESCRIPTION	COLOUR	PACKS PER PALLET	APPROX BALES PER PACK
SMALL SQUARE BALERS	TWN0001	EZY SEE BLUE SMALL SQUARE 2 X 2,000M PACK	BLUE	40	706

## USAGE AND APPLICATION

Designed for the tough baling environment of Australia, Ezy-See Blue is designed for use in all old and modern conventional Small Square balers.

Baling medium density small square bales, Ezy-See Blue is specified for both the Contractor and Farmer/End-user for use in crops types such as; Pasture, Cereal, Straw & Silage.

## FEATURES AND BENEFITS

- Incandescent blue fibre – Highly visible
- Dual capability for use in Small Square & Round balers
- 2000m Length spools - Maximise baler machine runnage
- Less packs twine required per load for more bales pressed
- Reduces time spent in the field
- Designed for Australian conditions with 12 Month guarantee against UV degradation.

## FAQ'S

- Is Ezy-See Blue Small Square suitable for baling Cereal & Pasture Hay & Silage?

Yes, it is suitable for baling all cereal & Pasture hay's and Silage in all Conventional medium density Small Square Baler Balers.

- Is Ezy-See Blue suitable for baling Straw?

Yes, it is suitable for baling straw in all Conventional medium density Small Square Balers.

- Is the colour of the Twine important?

The addition of coloured master batch can change the characteristics of the polymers. However, all colours from the Integrated Packaging Twine range are suitable for baling in Australian conditions. Some colours are preferred by consumers more than others due to visual requirements such as visibility in certain crop types, night baling or end-users requirements.

## FAQ'S

- Can I use Ezy See Blue small square baling twine in my Round baler twine system?

Yes, IP's Ezy See Blue small square is suitable to run in Round balers with Twine systems where a stronger twine is required for higher baling pressure.
