Q-300

Q-300XT

Q-300XT PLUS

S-300XT

THROUGHPUT

- Up to 30 loads per hour

IDEAL FOR

- Replacing labour intensive hand wrapping & improving productivity
- High value performance in load containment

BENEFITS

- Safe enclosed design
- No maintenance turntable support
- OHS & User friendly
- 12 month Warranty- Unlimited Cycles
- All Components.

FEATURES

- Exclusive Lantech Safety Features
- Belt driven roll carriage and turntable
- No metal to metal contact
- Lubricated for life sealed bearings
- Turntable diameter 1650mm
- Belt slack safety switch
- Micro controller
- Access to machine program
- Timer controlled by presets
- Turntable Speed 1-12 RPM
- Power-Roller Stretch® System 200%
- Various & customisable options available

THROUGHPUT

- Up to 30 loads per hour

IDEAL FOR

- Improved productivity for customers wrapping between 30-100 loads per day
- Eliminate the run-around with simple Automation™ in a fast paced environment

BENEFITS

- XT film cut & clamp
- Eliminates wasted operator time getting on and off the forklift
- Improve productivity by keeping the operator on the forklift
- Reduces risk of injuries
- Fully protected mechanical cut & clamp
- 12 month Warranty, on all components with unlimited cycles.

FEATURES

- Remote START lanyard switch
- Remote control units (optional & at additional cost)
- Automatic film cut & clamp
- Turntable diameter 1650mm
- Turntable Speed 1-12 RPM
- Power-Roller Stretch® System 200%
- Variable wrapping force
- Various & customisable options available

THROUGHPUT

- Up to 30 loads per hour

IDEAL FOR

- Eliminating double handling of loads
- Reducing the forklift and labour usage in the wrapping process
- Automation in a semi-automatic stretch wrap environment

BENEFITS

- Activated from forklift
- Saves valuable floor space
- Requires one less forklift and one less operator to wrap 30-100 loads/day
- Expediates flow to and from
- Reduces product damage
- Reduces risk of injuries
- Always open and ready to wrap the next load
- Clean design
- Safe, convenient film loading

- "Touchless" film cutting system
- Safety shut-down systems
- Easy access
- 12 month Warranty, on all components with unlimited cycles.

FEATURES

- Remote START lanyard switch
- Load accumulation conveyor
- Automatic film cut & clamp
- Turntable diameter 1650mm
- Turntable Speed 1-12 RPM
- Power-Roller Stretch® System 200%
- Variable wrapping force
- Hand held remote control units (optional extra at additional cost)
- Various & customisable options available

THROUGHPUT

- Up to 30 loads per hour
- Multiple configurations available.

IDEAL FOR

- Irregular shaped loads
- Unstable or heavy loads
- Forklift/palletjack loading
- Eliminating the "run-around"
- Improving productivity

BENEFITS

- No operator involvement
- Eliminates wasted operator time
- No getting on and off the forklift
- No bending to attach & cut the film
- Reduces risk of injuries
- No pneumatic hook ups with 240 Volt power for easy installation

FEATURES

- Remote lanyard START switch
- Automatic film attach & cut
- Protected mechanical cut & clamp
- Power-Roller Stretch® Plus System (200%)
- Maximum load height 1930mm*
- Electronically controlled wrap force
- Remote control units (Optional & at additional cost)

INTEGRATED MACHINERY

the future of stretch wrap technology

INDUSTRIAL MACHINE RANGE

ABOUT US

Established in 1990 Integrated Machinery, part of the Integrated Packaging Group, is recognised as a leading manufacturer of quality stretch wrapping equipment and systems throughout Australia and New Zealand.

We're also proud agents for the Lantech range of wrapping equipment from the United States.

Through continued development of in-house resources and technology we are able to provide state of the art equipment to meet the needs of a wide range of industries.

We are committed to providing high quality, cost effective solutions to suit your company's specific requirements.

Our stretch wrapping equipment ranges from semi automatic machines to fully automated lines and individual projects.

Our resources fulfil every project requirement incorporating design, engineering, installation and commissioning. In addition, to ensure optimal performance from our equipment, we provide an ongoing preventative maintenance and repair service.

exCELL310

exCELL320

FEATURES

- Throughput up to 30 loads per hour
- 80 mm turntable height
- 2000 kg turntable capacity
- 2200mm standard wrap height
- 1650mm turntable
- 500mm friction brake (Variable Tension Control)
- Suitable for 50mm & 76mm film cores
- Turntable speed max (15 RPM)
- AC variable speed drives
- PLC controlled
- Push Buttons
- Photo eye sensor detects various height automatically
- Selectable wrap cycles (i.e. Full wrap- Light wrap- Top sheet)
- Cycle counter counts the number of pallets wrapped (including service alarm)
- Top and bottom wraps adjustable (1, 2 or 3)
- Safety crush prevention device fitted to film carriage
- 240 VAC (10A) power supply
- Forklift transportable / front & rear access (Fork-tine outside width 1040mm)
- 12 month warranty

FEATURES

- Throughput up to 30 loads per hour
- 80 mm turntable height
- 2000 kg turntable capacity
- 2200mm standard wrap height
- 1650mm turntable
- 500mm powered pre-stretch (Adjustable film tension)
- Suitable for 50mm & 76mm film cores
- Turntable speed max (15 RPM)
- AC variable speed drives
- PLC controlled
- Touch panel with screen
- Photo eye sensor detects various height automatically
- Selectable wrap cycles (i.e. Full wrap- Light wrap- Top sheet- Reinforce)
- Cycle counter counts the number of pallets wrapped (including service alarm)

Machine Replacement

If your equipment has served you well but it is time for it to be replaced, speak to us about our 'End of Life' offers.

Service and Repairs

We have an Australian wide team of trained service technicians and agents that can service and repair your equipment. They are supported by a highly skilled team at our Head Office, with a vast range of experience in designing and manufacturing stretch wrapping equipment.

Planned Maintenance

We recommend regular planned maintenance for your equipment, this allows you to look after your equipment, extending its life and identifying parts that are wearing. These parts can then be replaced at a time that is convenient for you potentially avoiding a breakdown situation. Ask about our Extended Warranty that accompanies our Planned Maintenance Agreements.

Spare Parts

We stock an extensive range of spare parts. Same day despatch for items in stock.

Rental Machines

We have semi automatic stretch wrapping machines available for rent, for short or long term.
