Integrated Recycling manufactures the Envire® range of recycled plastic products and the Duratrack® railway sleepers at its Mildura factory in Victoria and is part of the Integrated Packaging Group, a PPG company. They are made from a patented mix of recycled plastics and recycled polystyrene and are resistant to termites, rot, water and sun damage. They are non toxic, don't leach, are easy to work and more durable than timber or concrete.

IR distributes the DuraComp® range of imported decking and slats and the Australian made EverTuff® range.

## BOLLARDS

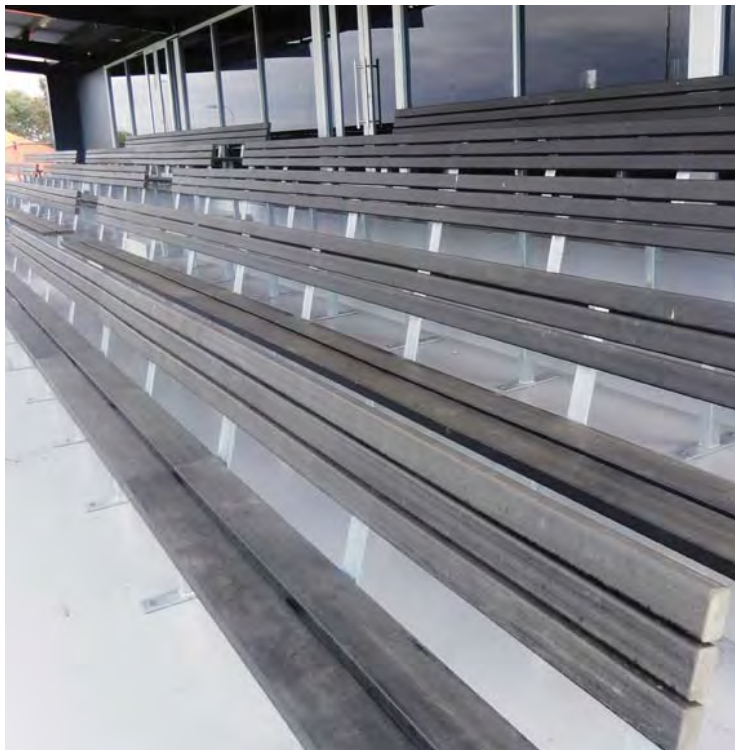

SQUARE - ROUND - PYRAMID - DOMED  
FLAT - LOCKABLE - SIGNAGE FEATURES

Resistant to termites, rot, water and sun damage, our patented composite recycled plastic bollards can be worked easily like timber to incorporate rope or chain.

Maintenance free and built to last, our bollards will last 2-3 times longer than timber.

Available in an earthy colour palette.

## OUTDOOR FURNITURE

WETLANDS TABLE - MURRAY PICNIC SETTING  
PARK SEATING - GRAND STAND SEATING

Custom designed or 'off the shelf', our outdoor furniture is designed to be practical and durable. Suitable for parkland, recreational reserves and commercial buildings our furniture can be secured to concrete slabs or cemented into the ground.

Contemporary bench seat with arms.

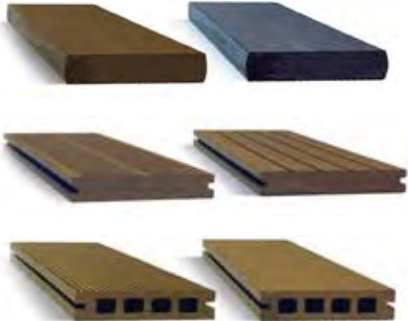

# DECKING

## COMMERCIAL AND RESIDENTIAL

Great for large commercial projects or small domestic jobs, our decking boards are strong, long-lasting and don't require painting or oiling. Available in lengths up to 5400mm and in a variety of widths, thickness and colours.

Beautifully presented in earthy tones.

**envire**® **everTUFF**® **duraCOMP**®

A variety of profiles and colours are available.

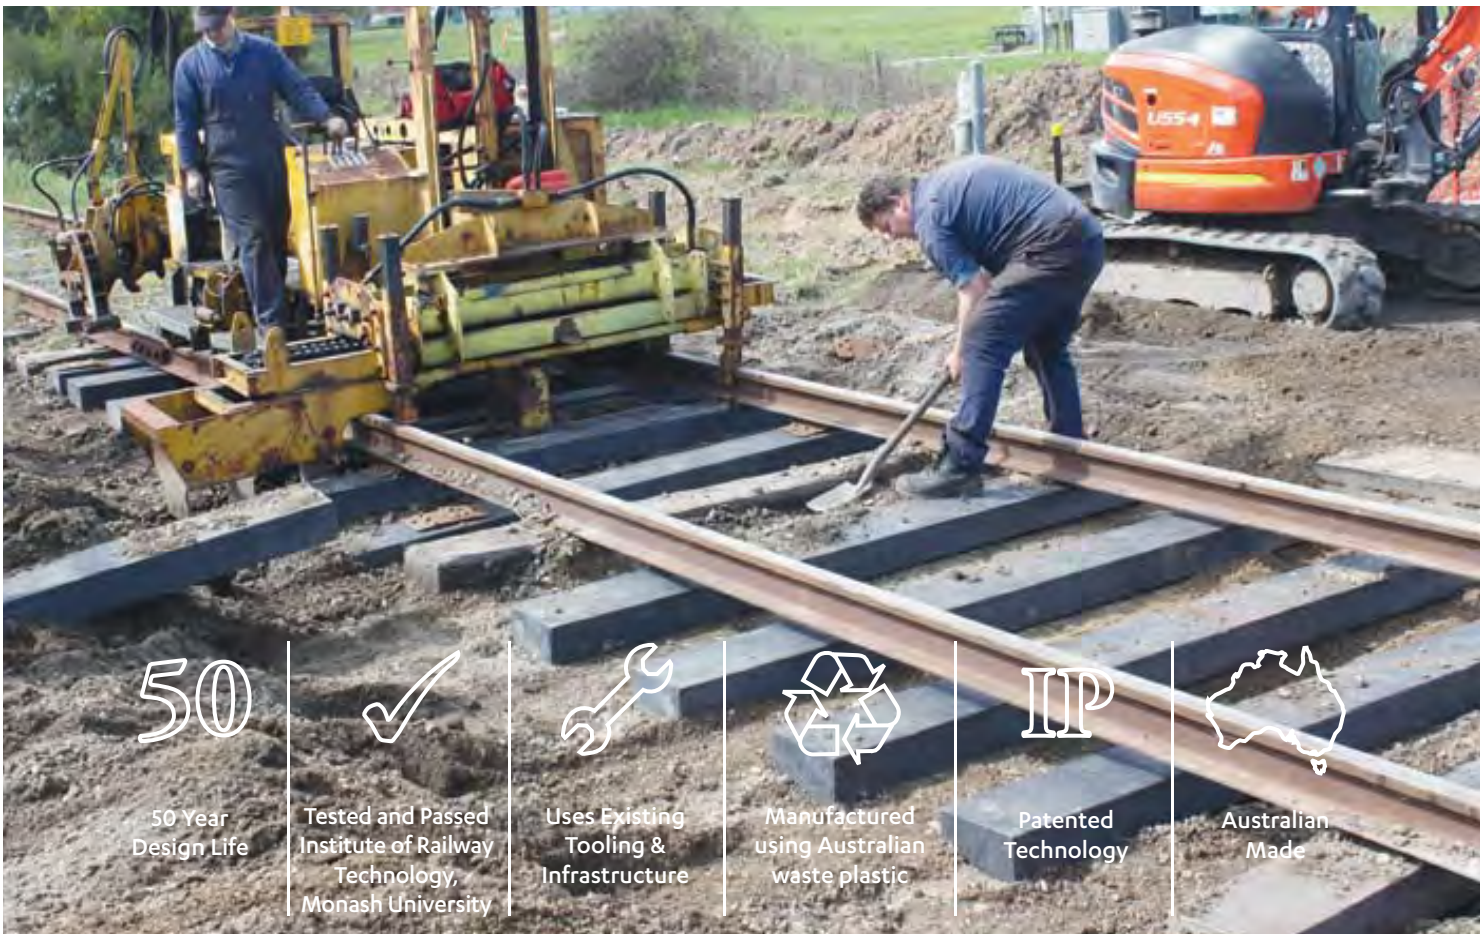

## BOARDWALKS

### DECKING BOARDS & SUBSTRUCTURES

Our pedestrian boardwalks and substructures are ideal for waterways and harsh coastal installations where timber products deteriorate.

Custom designed or 'off the shelf' modular units are available in a variety of lengths and widths.

## RAILWAY SLEEPERS

**DURATRACK®**

Our railway sleepers have a design life of 50 years which is 3 times longer than timber. Duratrack® railway sleepers are resistant to termites, do not rot and utilise existing tooling and infrastructure.

Tested by the Institute of Railway Technology Monash University.\*

**PASSED**

\* Duratrack® sleepers have been extensively and successfully trialled within the Guidelines for use in the Tourist & Heritage railways.

## MARINE

### DURABLE IN EXTREME WEATHER AREAS

Suitable for wet, salty and challenging environments, our non-toxic patented composite recycled plastic has passed the toughest test when used for oyster farms, marine decking, wetland boardwalks and shoreline fencing.

**envire®** **everTUFF®** **duraCOMP®**

Due to the very low water absorption our decking and sub-structure boards are ideally suited to wet and humid environments.

## CUSTOM

SIGNAGE - CANOE LAUNCHER - PLASTIPOLE  
CROSSOVERS - DOG AGILITY EQUIPMENT

We custom design and produce in small or large quantities to your specifications. Our patented composite recycled plastic can be worked easily and has a life span 2-3 times longer than timber.

**envire**® **everTUFF**® **duraCOMP**®

PlastiPole secures the rubbish bins and prohibits bulk rubbish dumping.

## LANDSCAPING

FENCING - EDGING - PRIVACY SCREENS  
RETAINING WALLS - GARDEN BEDS

Resistant to termites, rot, water and sun damage our landscaping applications are tough, easy to work, non-toxic and made from patented composite recycled plastic. Suitable for large commercial projects or small domestic jobs and available in an earthy colour palette.

**envire**® **everTUFF**® **duraCOMP**®

Our garden edging will last 3 times longer than timber.
